

## Partners

Aimhigher London South provides a network for 38 schools, 8 Higher education institutions (HEIs) and 9 Further Education Colleges (FECs) to work together and provide aspiration-raising activities for Aimhigher identified students

### Aimhigher Co-ordinators

The Aimhigher team broker relationships with named Aimhigher co-ordinators in each of the identified Aimhigher institutions to ensure appropriate activities are delivered by HEIs and FECs to meet the needs of Aimhigher students.

At a borough level co-ordinators from the three education sectors, plus a Local Authority representative, come together on a termly basis to share good practice.

### Area Partnership Committee

At a strategic level the partnership is managed by the Area Partnership Committee with representatives from across the three educational sectors, IAG providers and Local Authorities. The APC is responsible for area planning and allocation of funding.

The APC meets termly [APC meeting notes](#)
